Baby please don't be so sad
Oh you're the only one i have
I know my words fall short sometimes
But they're never meant to be unkind

Please don't release me
Today c'mon baby we'll be oh oh k

Promise me we won't break up
Oh you were my teenage queen
Well i wanna spend my life with you
And do the things you wanna do

Oh i, oh i would give you anything
Oh i, oh i would give you anything

Baby don't you (?)
Oh my love for you is far from dead
Well it's scary when you take my hand
But hurting you is not my plan

Jenny where are you tonight
It's cold outside and i'm so scared
But you know i (?)
Promise that i'll (?) you and i (?)
