Well she was just about the prettiest girl
That he ever saw but
Everybody knows that when you're with a pretty girl
Things usually turn out wrong
'cause they know what they want
And they know they can get it

All he wants is a pretty girl
All he wants is a pretty girl
All he wants is a pretty girl
All marty wants is a pretty girl

Well he worked hard all night and day
Just to have her by his side
But she threw away all the money he made
And he lost all his pride
Well she knew what she wanted
And she knew she would get it
