My mom's been going downtown again
I think she's back on that old heroin
She sleeps all day and she stays out all night
Something tells me that she's not alright

Gonna send her on a little vacation
Off to rehabilitation
'cause i just can't stand it anymore

Mom's in rehab
Mom's in rehab
Again woh-oo-woh-oh-oh

Took her on the montel williams show
If she listened well i just don't know
She better clean herself up pretty fast
'cause how much longer can my patience last?

She took an overdose
And now she's comatose
And now i think she's goin' down again
