What would what would joey do about the state of rock
n' roll

What would what would joey do if he could would he
sing this song oh oh

It's almost the end of the century
But i'm sure this ain't the way he thought it'd be
If we put his name on a bracelet
If we put his name in lights
Joey would he come and save us tonight

Latley oh man it's been such a drag
Dinosaurs still try to wave the flag
If we came up with a slogan
Showed it to everyone in sight
Joey would he come and save us tonight
