"If It Was Up II Me"

I hear we livin in the last days it's revelation and you
best get right with God or else hell is waitin the world is
conin to an end
everyday it's a storm or a flood or tsunami this shit aint
the norm we got Katrina and Rita
minds keep collapsin wit tha fires and mud slides I'm
like what's happnin?
Got the kids in the school getting raped and molested
Underfunded under protected no wonder they tested
in the lowest damn percentage rate
and my city damn near the lowest in the state you can
equate that to the state funds that aint breakin down
right rich districts get more and poor ones get less and
that jus don't sound right
so im finna pound right on the doors of my city hall
and kick them hos down
they killin' my city yall we need to get my people back
to where they should be
and since nobody else gon do it it's gon have to be me

First of all the projects is fucked up and it ain't jus with
the drugs we got more problems than the dealers and
thugs.

They usein lead base paint and asbestos is killin us we
tell them to fix it up but jus aint feelin us.

They'd rather kick us out and tear it down to the
ground, so they can put up a parking lot a mall or some
condos.

Condemn the whole place cuz a few sell crack shit the
rest aint do nothing wrong

what the fucks up with that? They say that one rotten
apple can spoil the whole bunch

but we talkin bout some people not apples this aint
lunch. Make me wanna punch a politician dead in his
face.

You say you represent my district, get yo ass on the
case.

"Development is good for the hood," yea that's what
you tellin us but bitch you on the payroll of the builders
and developers.

Fuck what you seellin us pipe dreams fa suckers, you
can take that round the corner to them other
motherfuckers

So much youth they sacrifice just to live in paradise
play they tricks and tell they lies (I know)
it's said to see how they treat the poor have so much
and still want more I see my people every day on the
floor
It's time to educate the people mayne free school and
college so everybody cross the board can get the same
knowledge.
Education leads to jobs and jobs kill poverty and no
more poverty means we makein money obviously.
Everybody gettin money, everybody smilin.
Motherfucker's aint eatin them motherfuckersf wildin.
Matter fact speakin of eatin lets feed the homeless in
America let these other folks handle they own shit.
How imma clean your house and mine still dirty? How
imam feed yo kids while mine sit thirsty?
And speakin of the kids we need to spend more time
wit em. Can't turn them loose in the streets cuz they
dyin in em.
And all this naked head sex man you trippin fuck love
im lovein life you aint gon catch ya boi slippin.
You say ya boi trippin im jus keepin it G, cuz you can
see how good the world would be if it was up to me
