We don't live in the same world
We don't live in the same world
I caught you looking' in my world
As if you want to be my girl

I think we're dreaming the same dream
I think we're dreaming the same dream
I'll let you look into my dream
If you show me your dream
Tell me what it means

I don't wanna spend the rest of my days
Running around, chasing your shadow
So, please don't let this chance slip away
If you waste it this time I won't be here tomorrow

If we get it together
It could last forever
If you got the time to try it
You know it could be a riot

We don't want to live in the same world
We don't want to live in the same world
But I could step in your world
If you could step into my world

I don't wanna spend the rest of my days
Running around, chasing your shadow
So, please don't let this chance slip away
And if you waste it this time I won't be here tomorrow

We don't live in the same world
We don't live in the same world
Take a step into my world
Take a step into my world

We don't live in the same world
We don't live in the same world
Take a step into my world
Take a step into my world

We don't live in the same world

We don't live in the same world
Take a step into my world
Take a step into my world
