[Intro:]

Its been a long time comin
They wonder why I act like this ya heard me
That's all I know

[Chorus: x2]

They say I still got much to learn
But I know I still I got money to burn
I'm in the streets can't take it out of me
getting money getting money dats all I know

[Verse 1:]

How could you criticize me for actin' like I act if I ain't
never had a thang
My daddy got locked up when I was 12 my whole life
changed
My momma hustled hard and did hell to get the bills
paid
While you probably ridin' round the in yo escalate
But now that I got money I went and bought me 2
mansions
Juss to stunt on them niggas who told me I never had it
I walk out the door the other day and my momma told
me you got a lot to learn
She told me just because we got all this money to burn
don't think it can't be your turn
To go feed it to the streets
So I stay packin some heat
24 hours 7 days of the week cause they creep
24 hours 7 days of the week I'm a beast

[Chorus: x2]

They say I still got much to learn
But I know I still I got money to burn
I'm in the streets can't take it out of me
getting money getting money dats all I know

[Verse 2:]

I'm 18 years old and I done seen more drama than a lil
bit
And don't advise you to talk about it unless you lived it

My pedal to the medal while I'm thinkin bout all of my
dogs I lost in the streets
Tryin to ball like me
And this is for my niggas who used to roll gold d
poppin the trunk on them swangers Hopping
out in tall tees so all my niggas that ballin and feel like
me from the struggle and gutta to
makin' a lotta cheese
Keep my head up remember who got me right where
I'm at today as long as I got money I give a
damn what a hater say
One thang I know for sho I'm a get paper till it ain't no
more
Plus I got a crazy flow
Yea
I know some body said a hard head make a soft ass
That's why I keep a glock on the seat while I'm ridin in
my jag
51/50 you don't know nothing bout it
lil Homeboy... dont judge it... still ain't comin

[Chorus: x2]

They say I still got much to learn
But I know I still I got money to burn
I'm in the streets can't take it out of me
getting money getting money dats all I know

[Verse 3:]

I'm makin money nigga you can't tell me shit
I'm gone keep on stuntin, steady shinning on these
hatas
I'm counting money doing my thang I be hustling
from Monday to Sunday
Doing what I want I be getting it in

[Chorus: x2]

They say I still got much to learn
But I know I still I got money to burn
I'm in the streets can't take it out of me
Get money get money dats all I know
