She put that pussy on me  
She put that pussy on me

(Hook)

She put that pussy on me and I like it  
And I like it, that pussy got beef  
She put that pussy on me and I like it  
And I like it and it like me  
She put that pussy on me and I like it  
And I like it and it like me  
So that pussy got beef and I like it  
And I like it and it like me  
She put that pussy on me

(Verse)

Yea, and I like it  
She say she got a friend and they dyke man  
I know you probly thinkin to yourself that's triffin  
I fuck em both at the same time and they like it  
All type of freaky shit, I be on some kinky shit  
Grab her by her hand then I aksed her how you like that  
dick?  
You know I'm a fool with it, took her straight to school  
with it  
Bent over backwards and gave that pussy the blues  
Then I switched up the position, but seen her act a donk  
Working her from the side while I'm rubbing on that  
monkey  
The whole bed wet, man lil mama got that deep blue  
sea  
I done thought I brought her cycle down, how that  
pussy lean  
This some shit you gotta see, she could take a lot of  
me  
Worked her for 2 hours just to let her know that I'm a  
beast  
This shit feel like 6 flags, how yo pussy get that wet?  
She want me to stand up and hit but I ain't get there yet  
Okay go and assume the position and grab your ankles  
I beat it out the frame, she say she like when I spank

her

I be all off in her stomach when I'm working her for real  
She get dick rock hard like I'm working her with steel

(Hook)

She put that pussy on me and I like it  
And I like it, that pussy got beef  
She put that pussy on me and I like it  
And I like it and it like me  
She put that pussy on me and I like it  
And I like it and it like me  
So that pussy got beef and I like it  
And I like it and it like me  
She put that pussy on me

(Verse)

She wanna have sex on the patio (patio?)  
So we headed outside like a couple ratchet folks  
Me and her, her and me, still want that pussy beat  
So I'm still beamin, I could make that pussy ski  
Put you legs behind yo head and let me see if you a  
freak  
And I'mma try to leave that pussy swole for a whole  
week  
Girl I don't care what we break, all this shit could be  
replaced  
Hit her with that long stroke, man you should have seen  
her face  
We fuckin like grown folks, yea we really getting it in  
I hope you're ready to do some shit that you ain't never  
did  
Ridin through the city, fuckin in a limousine Benz  
Faded and windows tinted, can nobody peek in  
Please don't tell nobody who you been with all weekend  
They gon be jealous if they know

(Hook)

She put that pussy on me and I like it  
And I like it, that pussy got beef  
She put that pussy on me and I like it  
And I like it and it like me  
She put that pussy on me and I like it  
And I like it and it like me  
So that pussy got beef and I like it  
And I like it and it like me  
She put that pussy on me
