"Cold Inside"

Visit "[Cold Inside](#)" on MotoLyrics.com

Cold on the inside In phases my lights die Staring
through ardent eyes I love you, but I lied, yeah, yeah

Cold on the inside In faces a smile dies Staring through
ardent eyes I loathe you, but I lied

But "it should be okay," they said "Just forget the pain,"
they said Well, I could always, Lie And yeah
The doctor said I'll be just fine Yeah the whitecoat said
I'll live until I'm Cold on the
Inside of me I'm cold on the inside of me

Cold on the inside In me the male child Holds thoughts
that I hide Dead though I seem alive

Well, "it should be okay," they said "Just forget the
pain," they said Well, I could always, Lie Yeah,
The doctor said I'll be just fine Yeah, the whitecoat said
I'll live until I'm

Cold on the inside In me the lights die Staring through
ardent eyes As tears drop like moist flies

"But it should be okay," they said "just forget the pain,"
they said Well, I could always...

Lie

Yeah, the doctor said I'll be just fine Yeah, they call me
well, but I might live Too long to
Die on the inside of me I'm cold on the inside of me
