Time waits for no-one,
So do you want to waste some time alone tonight.
Don't be afraid of tomorrow,
Just take my hand,
I'll make it feel so much better tonight.

Suddenly my eyes are open,
Everything comes into focus, ah.
We are all illuminated,
Lights are shining on are faces, ah, blinded.

Swim with your sorrows.
I tried delusion for a while,
It's such a beautiful lie.
You gotta lose inhibition.
Romance your ego for a while,
Come on give it a try.

Suddenly my eyes are open,
Everything comes into focus, ah.
We are all illuminated,
Lights are shining on are faces, ah, blinded.

We are, We are blinded.
We are, We are blinded.

Suddenly my eyes are open,
Everything comes into focus, ah.
We are all illuminated,
Lights are shining on are faces, ah, blinded.

We are, We are blinded.
We are, We are blinded.
