Time waits for no-one,
So do you wanna waste some time tonight?
Don't be afraid of tomorrow,
Just take my hand
I'll make it feel so much better tonight.

Suddenly my eyes are open,
Everything comes into focus,
AHHHHHH AHHHH
We are all Illuminated,
Lights are shining in our faces,
Blinding.

Swim with our sorrows
And try delusion for a while,
It's such a beautiful lie.
You've got to lose inhibition,
Romance your ego for a while,
Come on give it a try.

Suddenly my eyes are open,
Everything comes into focus,
AHHHHHH AHHHH
We are all Illuminated,
Lights are shining in our faces,
Blinding.

We are, we are blinded.
We are, we are blinded.

Suddenly my eyes are open,
Everything comes into focus,
AHHHHHH AHHHH
We are all Illuminated,
Lights are shining in our faces,
Blinding.

We are, we are blinded.
We are, we are blinded.
