I'm the next new kid not on the block  
But I will knock your block off quick not with a glock  
But two guns and knuckles that bring pain  
It's a shame you couldn't spit venom on my name

Is it worth all the fame and money it's no joke  
I done came from nothing to something it's so funny  
How you could just start at the bottom so hot  
Til they see you at spot when you got no product

And the crowds do flock to see you  
And the shot you got and it's hot to be you  
And shocked to see through all the squat they feed you  
You did not squeeze through in a plot they need you

The dude calling shots at the top could be you  
Unless you get got and the rest it rings true  
It's just the beginning of pain and my glory  
Starts when I finish the end of this story

Shake the ground  
(Everybody move to the sound! Get up!)

We put 'em down, put 'em down, put 'em down now  
Shake the ground  
(Everybody move to the sound! Get up!)

We put 'em down, put 'em down, put 'em down now  
We put 'em down, put 'em down put 'em down now  
We put 'em down, uh!

See I float like a butterfly, you could fly like a bee  
With a sting but could never fight me  
Call it Bulletproof, Teflon with a voice  
And track that hard just to put it through

'Cuz it's a banger comin' in showin' the middle finger  
Once I begin to flow you'll know anger  
One dagger sharp with the tongue, I walk with a  
swagger  
You seem to stagger

One slip of the jaw and Hush I'm Quick Draw McGraw

'Cuz me I see all see y'all fallout  
Ballout on the streets and seize all  
And beef I breath for

Try me lyrically I'll bully and squeeze off 'til fully  
See y'all I'll risk it  
When your dogs to limp for bizkits call for this shit

Shake the ground  
(Everybody move to the sound! Get up!)  
We put 'em down, put 'em down, put 'em down now  
Shake the ground  
(Everybody move to the sound! Get up!)  
We put 'em down, put 'em down, put 'em down now

I'm here, you've been waiting for me  
You've been waiting to see, now that I'm here  
I'll be right on the top of things, no you don't want it  
now  
'Cuz we be poppin' thangs, no you don't want it  
I said, "No you don't want it now"

When I'm to hot you're lovin' it  
When I'm not you're just not into the plot with no slug in  
it  
Just not shot with a glock or Tupac in it  
Must not be in a squad with no thug in it

'Cuz I'm a breakthrough where I take you  
Now I will shake you up like a quake and make it so  
painful  
Pistols ain't playful it's the way crews act they erase you  
If I'm to face you I'll replace you quick

When I spit shit that's so graceful Mase will embrace  
you  
So you better pray Jesu sways your way just to save you  
Me I will never die, but I will live on in any song long as  
forever I  
Live for the agony and defeat whatever it is I meet with  
no tragedy

Shake the ground  
(Everybody move to the sound! Get up!)  
We put 'em down, put 'em down, put 'em down now  
Shake the ground  
(Everybody move to the sound! Get up!)  
We put 'em down, put 'em down, put 'em down now

We put 'em down, put 'em down, put 'em down now  
We put 'em down, get up

We put 'em down, put 'em down, put 'em down now  
We put 'em down, oh
