If you're tired of all those other dances
If you're tired of all those other moves
You should do this dance that's really way out
You should do this dance that really grooves

Buzz like a drone
To that guitar tone
Be the cool chick on the scene
When you fly around like a queen

Do the bee, do the bee
Do the bee, do the bee
Do the bee, do the bee
Do the bee, do the bee

Do the bee, do the bee
Do the bee, do the bee
Do the bee, do the bee
Do the bee, do the bee

Jump around like you're having a real good time
Jump around, then go and pollinate
Do the bee when you are at a party
Being a social insect is so great

It's even money
You'll impress your honey
Build up a sweat
And look at the attention you get
