

## Husker Du

### "Gravity"

Visit "[Gravity](#)" on MotoLyrics.com

It's only getting darker

It may be moving faster

Well, it won't stop spinning

But how long will it remain?

This repulsive world

The crimes we all commit

It's not your gravity

It's not your gravity, gravity

The tension keeps building

The changes are rapid

We're through competing

Is it better to retreat?

This repulsive world

The crimes we all commit

It's not your gravity

It's not my gravity, gravity
