We've got guns at my school  
You've got guns at your school  
Guns and knives taking lives  
Fuck you

Every time it's a different story  
When they come to our territory  
Is it fun or race relations?

Guns at my school  
Think that's cool?  
You like violence?  
Think it makes sense?  
Fuck you

We've got guns at my school  
You've got guns at your school  
Guns and knives taking lives  
Fuck you

Every time it's a different story  
When they come to our territory  
Is it fun or race relations?

Guns at my school  
Think that's cool?  
You like violence?  
Think it makes sense?
