Take a look around this bar
take a look around this place
take a look around this hall
Think it's a fucking gym?
Kick and punch and kick and punch and
kick and punch and kick and punch
Who's your friend? Who's your friend?
Who's your friend? Who's your friend?
Your enemy.

Take a look around this bar
take a look around this place
take a look right in the mirror

What are you a fucking queer?
Kick and punch and kick and punch and
kick and punch and kick and punch
Who's your friend? Where's your friend?
He's over there, he's gonna fuck it up
for everybody

Kick and punch and kick and punch and
kick and punch and kick and punch
Who's you friend? Who's your friend?
Where's your friend? I guess he'd rather
be punch drunk
