If there's a thing that I can't explain  
it's why the world has to have so much pain  
with all the ways of communicating  
we can't get in touch with who we're hating  
So turn on turn on turn on the news  
I hear it every day on the radio  
somebody shoots some guy he don't even know  
airplanes falling out of the sky  
a baby's born and another one dies  
highways fill with refugees  
doctors finding out about disease  
with all this uptight pushing & shoving  
that keeps us away from who we're loving
