If there's one thing that I can't explain  
Is why the world has to have so much pain  
With all the ways of communicating  
We can't get in touch with who we're hating

So turn on, turn on, turn on the news

I hear it every day on the radio  
Somebody shoots a guy he don't even know  
Airplanes falling out of the sky  
A baby is born and another one dies

Highways fill with refugees  
Doctors finding out about disease  
With all this uptight pushing and shoving  
That keeps us away from who we're loving

So turn on, turn on, turn on the news
