

## **Husky Rescue** **"Nightless Night"**

Visit "[Nightless Night](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I can't live in the city  
Once you go back to the country side  
When I hang out in bikini  
In moon light

I will die in the city  
Rescue me to the nightless night  
Girls and boys look so pretty  
With tan lines

The country side, you turn the light  
A nightless night is on my mind  
The country side, the killing night

The country side, the nightless night  
You turn the light, I'll feel alright  
The country side, I'm hypnotized  
Sunshine

I lose my mind, you turn the light  
I lose my heart in the country side  
Oh satellite, will you take me high?  
To moonlight

I lose myself to nightless night  
I lose my love on a sweet moonlight  
We turned the light  
Will you make me fly,  
To sunlight?

The night is mean in the city  
The night is sweet in the country side  
Say goodbye to the city  
Say bye bye

I fall in love with the city  
I'm making love with the country side  
The night is sweet like graffiti  
And starlight

The country side, you turn the light  
A nightless night is on my mind

The country side, the killing night

The country side, the nightless night  
You turn the light, I'll feel alright  
The country side, I'm hypnotized  
Sunshine

I lose my mind, you turn the light  
I lose my heart in the country side  
Oh satellite, will you take me high?  
To moonlight

I lose myself to nightless night  
I lose my love on a sweet moonlight  
We turned the light  
Will you make me fly,  
To sunlight?

Oh super fly will you take me high  
And take me base where the sun will shine  
Take me down to the riverside  
To starlight

And take me up to the satellite  
The universe screaming I'm alright  
Country side, the nightless night  
And sunshine

I lose my mind, you turn the light  
I lose my heart in the country side  
Oh satellite, will you take me high?  
To moonlight

I lose myself to nightless night  
I lose my love on a sweet moonlight  
We turned the light  
Will you make me fly,  
To sunlight?

Oh super fly will you take me high  
And take me base where the sun will shine  
Take me down to your riverside  
To starlight

And take me up to the satellite  
The universe screaming I'm alright  
Country side, the nightless night  
And sunshine
