Don't lower your head  
You might mess up your hair  
Be evil, look straight  
Walk with a stake in your ass  
Don't laugh at our jokes  
Or your face painting melts  
Dress black, drink blood  
And sleep outdoor in the snow

Cursed be God  
Write it on your shirt  
Put it on the back  
To show how cruel you are  
Pentacles to scare  
Methuselahs at the park  
You wanna be so cool  
But we take the mickey out of you

You the Antichrist  
Evil is for sale  
666, flaunt it everywhere  
You deserve a fist  
Your name is on a black list  
From Zdaynikuf megamosh force

You wouldn't frighten a rabbit  
You wouldn't debauch a hooker  
Sweat in leather clothes  
But hold on, don't give in  
Necroputriblasphemator  
Or the weakest of the pussies  
Satan is a poser  
And you're just a bunch of losers

You the Antichrist  
Evil is for sale  
666, flaunt it everywhere  
You deserve a fist  
Your name is on a black list  
From Zdaynikuf megamosh force
