That damn fat Bob with his easy to see tips  
Is driving us crazy understanding what is it  
180 shove it shower  
Front side, nollie, grab nose stall

How can we pretend to do that bag of tricks  
We can't even jump off the board without a twist  
Acne filled kids cut from mother a breast  
Laugh behind our shoulders

We started too late for this damned game  
Skating when older, it's not the same  
Smashed bones and face on the ground  
Who got us to do it, fuck you all

Skate addiction  
It's more than a religion  
Who cares about the rest  
When you're trying to do your best  
Skate addiction  
Bones fly but skates  
Are still on the ground  
Skate addiction  
It's more than a religion  
Who cares about the rest  
When you're trying to do your best  
Skate addiction  
Bones fly but skates  
Are still on the ground

Friends break clavicles in ruinous falls  
Unconscious on the ground  
Through a bunch of crooks  
Even the pushers suggest for us to stop  
But ankles keeps on getting sprained

We shot off from work  
With a squeal of tires  
Macehunger's cement waits for us  
We'll tear another shirt  
Trying a basic trick  
Maybe when we're 40 years old

We'll succeed with it

Skate addiction  
It's more than a religion  
Who cares about the rest  
When you're trying to do your best  
Skate addiction  
Bones fly but skates  
Are still on the ground  
Skate addiction  
It's more than a religion  
Who cares about the rest  
When you're trying to do your best  
Skate addiction  
Bones fly but skates  
Are still on the ground

Skate addiction  
It's more than a religion  
Who cares about the rest  
When you're trying to do your best  
Skate addiction  
Bones fly but skates  
Are still on the ground  
Skate addiction  
It's more than a religion  
Who cares about the rest  
When you're trying to do your best  
Skate addiction  
Bones fly but skates  
Are still on the ground
