

Hybrid "If I Survive"

Visit "[If I Survive](#)" on MotoLyrics.com

Breathing shallow
I'm slippin' away
Hanging in the gallows
I'm starting to pray

How careful it was planned
To do away with me
So kill me if you can
But words won't make me bleed

So what if I survive
And live to tell the truth
Imagine my surprise
To find me living and so very much alive

I'll find a new life and hide if I survive
But I swear you're going down if I survive

I'll find a new life and hide if I survive
I'll find my own place in time if I survive
I'll learn to forget the crime if I survive
But I swear you're going down if I survive

If I survive, I'll tell on you
If I survive, I'll tell on you
If I survive, I'll tell on you

I'll find a new life and hide if I survive
I'll find my own place in time if I survive
I'll learn to forget the crime if I survive
But I swear you're going down if I survive

If I survive, I'll tell on you
If I survive, I'll tell on you
If I survive, I'll tell on you
