You can take your pride - And Walk on by
You can live your life - You can try
I know what's inside
Of your mind

Go ahead with what you do
Everyone can see right through you

CHORUS

Go ahead and walk right on by me
I look away cause I don't know you
You turn away those who know me
They look away cause
They all know you yeah

I will take the blame - Because of you
You will feel the pain - For what you do
Look away, that's what you do
To see the truth is so above you

CHORUS

Your selfish ways annoy me
Go ahead with what you do
Everyone can see right
Through you

CHORUS

Go ahead with what you do
Everyone can see right
Through you

CHORUS

OUTRO

You live a life of lies
In your self righteous sin
You're shameful in my eyes
I'll never let you in
