I love the way that you smile
Through your deep brown eyes
I see all of your expression
Trapped inside of my mind
I feel the warmth wrapped all around me
No matter if you hide
All the love that I can handle
Makes me warm inside

CHORUS

Iâ€™m feeling better
Since you came along
Iâ€™m feeling better
So I am singing this song
Love spoke to me
My heart was telling me that
Love spoke to you
Your heart was telling you that

Love spoke to me
I love the way that you listen
(I love the way that you care)
And the way that you care
(Hey yeah)
And anytime that I need you
(you will be there)
Iâ€™ll know youâ€™ll always be there
Iâ€™m feeling better
Since you came along
Iâ€™m feeling better
So I am singing this song

CHORUS

BRIDGE

Love spoke to me
Oh come to me
CHORUS 2X
Love spoke to me
Hey yeah
