Visit "[Mutilated Mind](#)" on MotoLyrics.com

Staring through the portals
Of a darkened soul
Where no light seems to shine
Dismal stares of sadness
Seep from you
Your frustration undefined
Help me
Reach into your mind
Let me see what I can find
Look at where you are right now
And where you were before
It's enough to make you see
There's a glimpse of light
That shines within your soul
Come and let you mind go free
Help me

Reach into your mind
Let me see what I can find
Give me just a little time
I will mend your mutilated mind
Hey - Yeah
Come on, see what you can find
Oh, give me just a little time
All these things
Trapped deep inside my mind
Help me
Reach into your mind
Let me see what I can find
Give me just a little time
I will mend your mutilated mind
Help me!!!
