(Chorus:)

I just can't leave it alone  
(I've got to sing a song of my redemption)  
I just can't leave it alone  
(I've left that old life behind)  
I just can't leave it alone  
(Oooh, this funky light of my salvation)  
I just can't leave it alone  
(I've got to let it shine)

They won't shut me up  
They ain't gonna put me down  
They thing they've had enough  
I just can't leave it alone

(Chorus)

His love's an ocean and we're going under  
To the bottom of the sea  
Waves will crash against the rocks like thunder  
And they're beckoning to me  
They won't shut me up  
They ain't gonna put me down  
They thing they've had enough  
I just can't leave it alone

Oooh, I just can't leave it, I just can't leave it  
I just can't leave it alone

His love's an ocean and we're going under  
To the bottom of the sea  
Waves will crash against the rocks like thunder  
And they're beckoning to me
