Searching for my place in this world  
Getting lost over and over again  
Casting lustrous pearls  
Yet you protected my heart  
You never let me stray too far  
You knew I couldn't pull myself out  
By the strength of my arms

(Chorus:)

You've got me right where you want me  
You took me and put me in my place  
You've got me right where you want me  
And I never felt better

All of my words were profane  
The only time I called Your Name I took it in vain  
Yet You heard my cry, even though I lived a lie  
You new that I would be Your servant  
'Til the day that I die

(Chorus 3x)

You've got me right where you want me  
You've got me right where you want me  
You've got me right where you want me
