"Killing Time"

Can't explain what we have now
All I know is what I feel
And what I feel is always real
So real

I know you want me to lie now
And tell you that I never cared
But the truth is always there
I'm not going anywhere

I won't let you down
And if you walk away from me
And turn around
Don't tell me I'm just killing time now

I won't let you down
And if you walk away from me
And turn around
Don't tell me I'm just killing time now

Are we just killing time [x2]
