Welcome to the future
That old familiar fate
Trying not to hurt now
But to heal

'Cause this is the end
I hope you enjoyed every minute
'Cause time won't bend
It's only your world while you're in it

Don't turn away
Look ahead
There's nothing we need from the past
It wasn't meant to last

Welcome to the future
We knew this day would come
Trying not to falter
But to live

'Cause if it's the end
I'll stay till the very last minute
But I can't defend
A world without you living in it

Why can't we try to survive
Time stays alive in my mind
Lives intertwined, fall behind
Can we break these ties
Can we rewind

Don't turn away
Look ahead
There's nothing we need from the past
It wasn't meant to last

Don't be afraid
Look ahead
Every thing's changing so fast
The future will soon be the past

'Cause this is the end
I hope you enjoyed every minute
'Cause time won't bend
It's only your world while you're in it

Welcome to the future
That old familiar fate
Trying not to hurt now
But to heal
