"Worship Me"

Busy with your empty life
Still don't know just what to try
I can be all that you need
I can can answer all your dreams
I feed off of your despair
Follow me, I'll take you there
Worship me
I'm on TV
Tell me you love me
Worship me
I'm on TV
I know that you love me
I'll distort reality
To give you what you need to see
I've got nothing new to say
But I will say it anyway
I will waste your days away
While the world falls to decay
Worship me
I'm on TV
Tell me you love me

Worship me

I'm on TV

I know that you love me

Worship me

I'm on TV

Tell me you love me

Worship me

I'm on TV

Tell me you love me

(I know that you love me)

I can be your distraction

Keep you away from all the action

Don't turn away, drop to your knees

Just keep your eyes fixed on me

On me, on me, on me

Keep em on me
