Since I was a child,  
I've followed my own way  
And was guided to this path

I'm so sick of hearing you  
Preach about heaven  
All this bullshit about paradise.  
Read all the signs guiding our lives

Are you trying to get in  
To the end of the rainbow?  
But I will always be there  
Here, with a stab in the back

Have mercy. It's the end  
Of your life

As my mind slips away  
I see no end of this misery  
The only truth is myself  
I can't go on this way  
No!

Read all the signs guiding our lives

The Christians must be stopped  
For spreading all the lies  
The only way to kill their hate  
Is, without love, with a stab in the back

Have mercy. It's the end  
Of your life.

... with a stab in the back  
Have mercy. It's the end  
Of your life

Open your mind's eye up
