Shredding the part of the knife.

Chopping my veins wide open.

Wait for the

I am ripping it, from my head.

Living my life like the end is here.

I can't take it!

Tonight we're all gonna pay.

Suicide with a metal gun.

Ripping a bullet through my head.

I've never felt so

Look into my world!

I'm a covering sky.

I can't see the light.

Your hallucinations appear.

My omen, god, the angels, self-invitation.

Reloaded!

I am in this world.

I can't expose my soul.

Reloaded!

I am in this stage.

Ready for the vengeful god!!!

Now!

It's a big fuckin' lie.

It's the other side.

Load your fuckin' mind, with bullshit lies.

Listen and decide, what to fuckin' do.

Tearing down the wall.

Face to face with the devil!!!

Tonight we're all gonna pay.

Suicide with a metal gun.

Ripping a bullet from my head.

I never felt so

Look into my world!

I'm a covering sky.

I can't see the light.

Your hallucinations appear.

My omen, god, the angels, self-invitation.

Reloaded!

I am in this world.

I can't expose my soul.

Reloaded!

I am in this stage.

Ready for the vengeful god!!!
