You haven't thought since the day you?  
It's like a hemorrhoid that fucks with my life  
You look at me like you've never seen me before  
Do you think I care? You're just another zit.

Snap out of it  
Snap out of it

Watch your mouth, kid  
I don't wanna hear you no more  
I'd rather talk to your ass  
The same shit comes out everywhere

It won't kill me. I won't hear it  
I know your kind. Snap out of it  
Filled with anger. Filled with hate.  
I know your kind, you're just a waste of time

You try to twist it.  
I spit in your face  
I don't see a reason to argue  
Why do you bother me?  
You're just wasting your breath

Here we go

Snap out of it  
Snap out of it

Watch your mouth, kid  
I don't wanna hear you no more  
I'd rather talk to your ass  
The same shit comes out everywhere

It won't kill me. I won't hear it  
I know your kind. Snap out of it  
Filled with anger. Filled with hate.  
I know your kind, you're just a waste of time
