Legions of world domination

These bastards kill with a method of hate
Suicide, the end prayer for death
Yeah, yeah, yeah
Armageddon, our earth is cast away

The angels cry and run in vain
Satan's victory, earth will stand in flames
Oh, the holocaust is falling in
Legions of world domination

Your careless of it's burning wrath
Murder and the sky turns red
Yeah, yeah, yeah
Turn crosses upside down
Yeah, through death we see the sign

Walk with me
From the grave
Teach this world
Things it's done
Want to save
Burning god
Evil world
Have no life

Go through death to come in the light

The angels cry and run in vain
Satan's victory, earth will stand in flames
Oh, the holocaust is falling in
Legions of world domination

The angels cry and run in vain
Satan's victory, earth will stand in flames
The holocaust is falling in
Legions of world domination
