It cannot longer be denied
The government's coverup frights your life
Keep your mouth shut, of what you have seen
or your body parts will spread around
for tring to proving missing time

Don't you see the terror has begun
not for the things you've been through
but the things you know / done

It's in institution
Where you will spend the rest of your life
Dysatherapy, justify the mind
Revealing all that of your soul...
It's always seduced your skin for the rest of your life...
The madman get's trapped and castrated before...

REQUEST DENIED!!!

It's in an institution
Where you'll stay for the rest of your life
Dysatherapy, justify the mind
Revealing all that of your soul...
It's always seduced your skin for the rest of your life...
??? treatment for
REQUEST DENIED!!!

The memories of the encounters,
Will never go away
Scared for the rest of my life
