As the full moon rised  
In the sky  
It awakes  
Master, bring out the dark  
Forces upon me  
I live for dying  
And to kill  
Watcher  
Open the Gates of Death

Reach for the silence  
Reach for an end

With a knife I release my blood  
not afraid to give away my soul  
for the elder gods  
Sign away in blood  
Now perform the sacred rite  
Cut apart the immortal god

Reach for the silence  
Reach for the end

We gather around  
The circle is completed now  
The time is right  
For the arrival of the demons
