the ?
made you right to be upon me
only be out to take their life
forever i'll be free
come to me ?
right into the sky
i'm the serpent god
it will be the final eclipse

drown in the empty
rivers are running warm
delusion ? a bubbling sun
does infect insanity
? always high
beautiful chaos day
in pain we will lie
creation of the demon sky

the god of fire is born
to come and take control

letting his wrath behind
in mortal reality
now your dead and stand before satan
hell is falling in
the daemon is of the ?
and we will take the dead
take the dead

touch the ?
right into the sky
of the serpent sun
it will be the final eclipse
?
beautiful chaos day
in pain we lie
creation of the demon sky
