I just don't know if I can hang on, when everything in my life is going wrong. I'm broken down, ready to quit, giving my best, and this is what I get? try as I might, it all falls apart, with failures and heartbreaks right from the start. going through life broken and battered, going through life like it fucking matters. I just don't know if I can hang on, when everything in my life is going wrong. I'm broken down, ready to quit, giving my best, and this is what I get? it makes me want to just give up. can't take another day, fucking fed up! try as I might, it all falls apart, with failures and heartbreaks right from the start. going through life broken and battered, going through life like it fucking matters. it makes me want to just give up. can't take another day, fucking fed up! I just don't know if I can hang on, when everything in my life is going wrong. I'm broken down, ready to quit, giving my best, and this is what I get? try as I might, it all falls apart, with failures and heartbreaks right from the start. going through life broken and battered, going through life like it fucking matters. it makes me want to just give up. can't take another day, fucking fed up!
