You said you could not love,
Instead you love to hate, ?The liars and the vampires
will break these bloody chains. ?
You say you cannot love,
Inside you love to hate, ?The liars and the vampires will
break these chains?
Saw you out the window,
As the bloodline fills this town with razors, ?Saw you out
that window...
It's not the same...
Her face is gone
And dead.?
You said you cannot love,
Instead you break away, ?We will dress her up in
fairytales, to me it is all the same,
And I'm sorry for the love you gave to me
Whoa?
Saw you out the window,
As the bloodline fills this town with razors, ?Saw you out
that window...
It's all the same...
This town is gone

And dead.

I saw you there,
As the day turns to night, ?But forgive me a chance to
see me rise again
Whoa'To see me rise again...
Again
To see me rise

Saw you out the window,
As the bloodline fills this town with razors, ?Saw you out
the window...
It was the same...
Her face is gone
And dead
?I'm dead (7x)
