Look how you've grown, it's etched in skin and bone  
Dressed in make-up and bleached out in the roses  
That's hollow and tasteless  
Where spirits make love and pretty corpses hold their  
brides  
Do you know I'd never hurt you?  
So taste it and we'll never be alone  
I'll take the first bite, yeah, I am ghost  
Say goodnight to you,  
My darlin', my darlin'

Few words can kill me, they inspire in your hands  
The sun outside their glass-shaped walls will burn the  
flesh off paper dolls  
My lips and tongue, they bleed...  
We won't fall, we'll be together, just the two of us  
That's hollow and breathless  
It kills me slowly, lost and lonely  
Do you know I'd never hurt you?  
Taste it and we'll never be alone  
I'll take the first bite, yeah, I am ghost  
Say goodnight to you,  
My darlin', my darlin'

I am so sorry, so sorry, sorry  
So take this rose  
And break this bottle of aged pills  
Taste the blue ones, we'll sleep through December.  
Awake to the birth of an Angel, she has your eyes  
And I will hide from them, don't worry  
Soon she will grow, I can't believe this is all my fault  
Yeah, soon she will grow.  
Unbury me and put me back together again.  
Taste it!  
Taste it!

Sad rose for life because I'm already dead!  
Taste it and we'll never be alone  
I'll take the first bite, yeah, I am ghost  
Say goodnight to you,  
My darlin', my darlin'

Taste it and we'll never be alone  
I'll take the first bite, yeah, I am ghost  
Say goodnight to you...
