Look how you've grown,  
it's etched in skin and bone,  
dressed in make-up and bleached out in the roses.

That's hallow and tasteless,  
where spirits make love  
and pretty corpses hold their brides

Do you know I'd never hurt you? (so taste it, taste it)

So taste "it" and we'll never be alone.  
I'll take the first bite, yeah  
I am Ghost,  
say goodnight to you,  
my darling, my darling.

Few words can kill me,  
they inspire in your hands!  
The sun outside look at glass-shaped walls  
will burn the flesh off all these paper dolls,  
We won't fall, we'll be together,  
just the two of us.

That's hallow and breathless,  
where spirits make love  
lost and lonely through your eyes

Do you know I'd never hurt you? (so taste it, taste it)

So taste "it" and we'll never be alone,  
I'll take the first bite, yeah,  
I am Ghost,  
say goodnight to you,  
my darling, my darling.

so take this rose  
so take this rose  
take this rose

We will sleep (will sleep) tonight (tonight) and all  
through December.

she will grow Angel,  
put me back together again.

Taste it!  
Taste it!  
Sad rose for life  
because I am already dead!

So taste "it" and we'll never be alone,  
I'll take the first bite, yeah,  
I am ghost,  
say goodnight to you,  
my darling, my darling.

So taste "it" and we'll never be alone,  
I'll take the first bite, yeah,  
I am ghost,  
say goodnight to you,  
my darling, my darling.
