I haven't felt this way in a long time  
And it scares me  
What are these voices that tell me that I'm ugly and  
fake?  
And I think they might be right  
I'm nothing  
And I have no heart  
It's quite possibly, I have no soul  
Drugs can't help me anymore  
And I think I'm dying  
We're both dying  
Really,  
But sooner than others, I think,  
My time is now,  
And I burned the bodies to the ground,  
I saw faces turned to ash,  
And I remember these faces, baby,  
Because it's the last thing you'll ever see,  
Too bad it's not as good looking as you like  
I'm already dead  
And I think I'll take you,  
I'll take you with me
