Soon the rain will wash away the sun as I melt with you.
I am Ghost...

Soon the rain will wash away the sun as I melt with you.
I am Ghost...

Soon the rain will wash away the sun as I melt with you.
I am Ghost...

Soon the rain will wash away the sun as I melt with you.
I am Ghost...

Soon the rain will wash away the sun as I melt with you.
I am Ghost...

Soon the rain will wash away the sun as I melt with you.
I am Ghost...

(Isn't this what you dreamed about?
Isn't this what you dreamed about?
One more taste from our lips and tongue;
We kissed.
Delicately sketched the seconds,
As they fly past.
Like snowflakes of lost bliss,
They drift like memories.
Isn't this what you dreamed about?
What you dreamed about?
What you wanted?)
