

I Am Inhuman "Above All Anguish"

Visit "[Above All Anguish](#)" on MotoLyrics.com

You have accomplished
Next to nothing
Your condescending criticism
I've achieved everything
My dreams become reality
As you are left behind
Your mentality
Driven by spite
The plagues your mind

I am above thee
The blood, sweat, and tears
I have overcome all fear
As you rot helpless

Gaining nothing
I have risen above your anguish
Above all anguish

Your words cannot pierce
This bulletproof heart
I have become better than you
And all the rest

Above this anguish I will reside
It makes me stronger as always on the inside
