

I Am Kloot

"Only Role In Town"

Visit "[Only Role In Town](#)" on MotoLyrics.com

it's the only role in town
and it's always been around
get the keys we'll make a start
you've got the heart, you'll get the part

keep on walking, don't sit down
just keep on talking, i'll be around
i'll be around

it's to be seen to be believed,
like fields of snow and christmas trees
through your days and through your nights,
they are turning on the lights

keep on walking, don't sit down
keep on talking, i'll be around
don't hit the ground

walking,
just talking,
i'll be around

you're still tripping down my stairs
my old clothes and funny hair
through the moon, on to the sun
by force of will, thy will be done

keep on walking, don't sit down
keep on talking, i'll be around
i'll be around

it's the oldest role in town
and it's always been around
get the keys, we'll make a start
you've got the heart, you'll get the part

keep on walking, don't sit down
just keep on talking, i'll be around
don't hit the ground
