I took a beating, in 2003
atleast I improved
my threshold for pain
see my eyes swelled up
and poured out blood
spent 6 months just cleaning it up
the doctor said he'd stitch up the cut, for me
My next beating's in 2 weeks

I've been taking a beating, in 2004
yeah only 2 months have pasted by
and I'm already on the floor
I took a baseball bat straight to the knees
and buckled over on the cold Brooklyn street
the same doctor helped me back to my feet
he said to me, 'I'll see you in 2 weeks'

Man if I take a beating, in 2005
It'll be a miracle
if I'm still alive
