I'm gonna sing this song with all of my friends
and we're I'm from Barcelona
Love is a feeling that we don't understand
but we're gonna give it to ya

We'll aim for the stars
We'll aim for your heart when the night comes
And we'll bring you love
You'll be one of us when the night comes

I'm gonna sing this song with all of my friends
and we're I'm from Barcelona
Love is a feeling that we don't understand
but we're gonna give it to ya

We'll aim for the stars
We'll aim for your heart when the night comes
And we'll bring you love
You'll be one of us when the night comes
