Falling from the station
No help in sight
Formulate your sentences
But there's no one left to find

If you're looking for a good time call me tonight
If you're looking for a good time call me alright
If you're looking for a good time call me tonight
If you have expectations don't call me

When you leave it's not easy
I need something that's mine
Secrecy but not deception
Things we do and things we are

Why can't you see that it's not fair?
Anything you can be I'm not
Why can't you see that it's not fair?
Anything you can be I'm not
