Give me a reason,  
A sign that our time's not up  
Cause baby we need something  
More than to just give up  
I'd like to say we gave it all  
It's so hard to let you go

[Chorus:]  
Cause A is the reason we wake up each morning  
Beside the person we love  
L A M E duck keeps flying in circles  
Knowing there's love left in us  
Love left in us

Give me a second,  
A chance the clocks not up.  
Cause baby we got something,  
More than it feels to us  
I'd like to say we tasted love  
Its so hard to let you go

[Chorus]

I'm wide awake I'm a sleepless disaster  
Counting the day until we get our last show  
Wishing that I could just turn back now  
Realizing there may be time to get better  
I know we can make it  
I know we can make it  
I know we can make it in the end

[Chorus]
