I'll stand next to you and you'll stand next to me
You try not to move and I'll try not to breathe
I'll stand next to you, you'll stand next to me
We both stand alone, walkin' in our sleep

Let me inside your head
(I'll never let you in)
Where is your innocence
(Guess it's already dead)

You're miles away from me
(Right where I want you to be)
You're miles away from me
You're miles away

You'll lay next to me and I'll lay next to you
Shiver in the sheets, stare out at the moon
Oh, you'll lay next to me and I'll lay next to you
We can live a lie, we can live a truth

Your heart is broken
(I'll never let you in)
Where is your confidence?
(Guess it's already dead)

You've finally broken free
(Right where I want you to be)
You're miles away from me
You're miles away

You can do for me like I can do for you
You can do for me like I can do for you
Oh, you can do for me like I can do for you
You can do for me like I can do for you

Oh, you can do for me like I can do for you
You can do for me like I can do for you
Oh, you can do for me like I can do for you
You can do for me like I can do for you

Let me inside your head
(I'll never let you in)

Let's put this thing to bed
(Guess it's already dead)

You're miles away from me
(Right where I want you to be)
You're miles away from me
You're miles away
